

APPLICATIONS

An angled 2 x 12" full range 2 way system for Modular stacking as required, doubling as a Mid/High cabinet in a 3 way system in P.A. and Discotheque systems.

PERFORMANCE

From 45 Hz to 20 kHz with studio 12B and HF 250 of very good quality full range sound. Sensitivity Mid-High section up to 105 dB for 1 Watt, 1 Metre.

MULTIPLE USE

Can be used as a modular system in stacks.

CONSTRUCTION

A very robust cabinet of a slightly complex design.

MATERIALS

2/3 sheets of 18mm (3/4") Board 8' x 4' size (2438 x 1219).

Designed for Loudspeaker Resonance of approximately 50 Hz.

SPECIAL NOTES

When used as a Mid-High cabinet the Reflex port may be used to house a further Bullet if required.
